

Angel Morales

Software Engineer

Profile

Committed, detail-oriented, Mexican software engineer with a deep interest in management systems (e.g. hospital management systems). Proven record of creating and implementing successful front and back end web applications. Looking to bring my skills to a tech company with an international reach.

Employment History

Software Engineer at 100Devs

October 2020 — Present

- Collaborated with a team of developers to build modern, responsive, and user-focused web applications using best practices.
- Built semantically structured full-stack web applications.
- Applied agile methodologies like SCRUM

Recent projects:

- Second team project: Lorem ipsum dolor sit amet, consectetur adipiscing elit. Morbi lectus arcu, condimentum nec orci vitae
- First team project: Lorem ipsum dolor sit amet, consectetur adipiscing elit. Morbi lectus arcu, condimentum nec orci vitae

Freelance Web Developer

November 2020 — Present

Recent projects:

- Scott Alan Plumbing and Heating: Scott Alan runs a family plumbing and heating business and I was part of his first entry into the online world.
- MAAC Servicios y Combustibles: MAAC is a leading supplier of fuel management systems and fleet dispensers in Mexico.

Education

Licenciatura en Medicina, Universidad de Sonora, Hermosillo

June 2009 — December 2013

Medical school graduate. Expecting medical license.

Extra-curricular activities

Live streaming on Twitch

January 2021 — Present

I run a Twitch.tv live stream focused on code review. Viewers may come with an issue in their code and we go through it live to use the problem as a learning opportunity.
